Priyanshu S Goyal

Frontend Developer
7758094456 | priyanshucode2025@gmail.com | GitHub | LinkedIn | Mumbai

Career Summary

Frontend Developer fresher with a strong foundation in HTML, CSS, JavaScript, and React.js and knowledge of the MERN stack. Seeking an entry-level opportunity to apply my development skills, build user-friendly web applications, and grow as a professional software developer while contributing to the organization.

Technical Skills

Frontend: HTML, CSS, Tailwind CSS, JavaScript, React.js, Redux
Backend: Node.js, Express.js, MongoDB, REST API Development
Programming Languages: JavaScript, Java

Internship

Front-End Development Intern Jun 2023 – Aug 2023
CodSoft *Remote*

- Built an interactive portfolio website and a responsive travel website using HTML, CSS, and JavaScript.
- Made a dynamic calculator application using JavaScript.
- Strengthened practical frontend development and responsive design skills through hands-on project implementation.

Projects

Invoice AI | *MERN Stack, Tailwind CSS, OpenAI API* | GitHub | Live Demo July 2026

- Developed a full-stack invoice management system enabling **users to create, manage, and track invoices** with real-time payment status (paid, unpaid, pending).
- Integrated **AI-powered invoice analysis** to **generate business insights using OpenAI API.**
- Built secure **RESTful APIs** and managed cloud database using **MongoDB Atlas.**
- Designed **scalable and responsive UI** focusing on real-world usability.

BudgetTripPlan | *React.js, Tailwind CSS, GenAI* | GitHub | Live Demo Oct 2025

- Built a responsive **AI-based travel planning** application that **generates budget-based trip itineraries**.
- Integrated **Generative AI to dynamically produce hotel suggestions** and day-wise travel plans.
- Implemented clean UI and optimized user experience.

PlayPrime | *React.js, Tailwind CSS* | GitHub | Live Demo Apr 2025

- Made a movie browsing application with **search and filtering** across 100+ movie entries.
- Implemented **filtering based on ratings and categories** to improve user experience.
